DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-5, 10 and 14 are rejected under 35 U.S.C. 102(e) as being anticipated by Wyzgala et al. (US 6,096,054).

Wyzgala et al. disclose a device 28 for administering a composition in a wall of a blood vessel or duct of a human body during an artherectomy procedure including: a balloon or radially expandable entry means 34 with perforating parts or elements in the form of an abrasive 36 disposed on the outer surface of entry means 34 for entering an inner surface of a duct wall to make openings in the form of a pinprick; and a hypotube or dispenser means 30 for placing the composition in contact with the openings (Figure 1B, col. 1, lines 11-13, col. 2, lines 19-21, col. 4, lines 51-67 and col. 5, lines 1-14).

Regarding claim 10, Wyzgala et al. further disclose dispenser means 30 to have one or more holes 32 that allow fluid to flow in or out of the dispenser means.

Claims 1-10 and 13-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Leonhardt (US 5,693,029).

Leonhardt discloses a catheter device for administering a composition in a wall of a duct having an entry means with perforating parts or elements 34 mounted on arms 32 for entering an inner surface of the duct wall to pierce the tissue with minimal trauma and damage, i.e., pinprick openings and a dispenser means (12, 24, 36, 38) for placing the composition in contact with the

openings; wherein entry means 34 are associated with needle assemblies 24 mounted on and spaced apart along a longitudinal axis of an inflatable chamber or balloon 28 (Figure 1, col. 3, lines 13-29 and lines 55-67 and col. 4, lines 1-61).

Response to Arguments

Applicant's arguments with respect to claims 1-16, presented in Paper No. 14 and filed on 6/26/03, have been considered but are moot in view of the new ground(s) of rejection.

Allowable Subject Matter

Claims 11 and 12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim 16 is allowed.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
